Thank you for purchasing this ©American Audio® product. For your convenience this products ready to be used, there is no assembly required. Please read the following instructions before installing or using your new unit.

Operating Instructions:

1. Plug in proper AC adapter.
2. Connect music signal to Left and Right input jacks, must be pre-amp level.
3. Turn the power switch on.
4. Adjust L and R audio controls to desired response
5. This unit has BAR and DOT display modes.

BAR mode: Set switch to BAR position, LEDs will glow from -57dB to 0dB according to signal strength.

DOT mode: Set Mode switch to DOT position, only two LEDs glow and chase from left to right according to audio level variety.

Sensitivity Adjustment: For low level and high level signals, adjust accordingly.

NOTE: This is not a Line Transformer, do not plug an RCA (unbalanced source) and then use XLR outs or vice versa.
