#### Cubase LE 6 start up guide

The screenshots in this guide were taken on Windows 7, however the installation process will be almost exactly the same on Mac.

1. Run and open the CD on your computer.

2. Open the 'Cubase LE 6' folder and then run the 'Start\_Center'

3. When launched, select your language and then run through the steps until you get to the main menu.

Web: http://www.focusrite.com/answerbase/ Phone: +44 (0) 1494 462246

- 4. Click on 'Install' and run through the installer for Cubase LE 6 on your computer.
- 5. After you have done this, go back to the main Start Center menu and click on 'Activate & Register'.
- 6. Here, follow the steps to create your "My Steinberg" Account
- 7. Steinberg will send a confirmation email to the address you provided them. Open that email, and click on "Activate Account". When you do, your account will be on line.
- 8. Once you have created your "My Steinberg" account, go to the "My Products" page, and select "Add New Software"

9. Under "Cubase", choose "Older Cubase AI/LE Version", then choose "Cubase LE 6"

10. If you haven't already done so, download the eLicenser Control Center (eLCC) <u>here</u>. You will need to download and install the right version of the software for your operating system (Mac or PC).

11. Once the eLCC is installed, open it up by going to Start > All programs. eLicenser on Windows, or Applications > eLicenser Control Center on Mac. Once open, go to; Registration > (your ELCC #) > Copy Serial Number.

12. In your "My Steinberg" page, paste your ELCC # in the "Soft-eLicenser" section (Ctrl+V on PC, Command+V on Mac), and select "Focusrite" under

"OEM Partne	er". Click Continue
