

DJ-Tech

2010 PRODUCT OVERVIEW

New Product information

Welcome to the groundbreaking U2 Station, a compact, easy to carry, all-in-one mixing solution for the Digital DJ. Sleekly designed and super light weight, the U2 Station is sure to be the portable DJ media player of choice for the digital DJ on the go.

DJ's can search, cue, play, pitch, mix and even scratch digital music files (MP3) directly from their USB storage device ... and add Effects as well: Flanger, Filter, Echo and Brake.

Fully MP3 Compatible, Multi Mode Jog Wheels for search or pitch bend, or Scratch are super easy to use. Plug and Play MP3 had never been that easy: Plug your USB pendrive, and load songs to both player in a snap, and even the same song can be loaded to both player.

Large Display with search and navigation delivers optimum functionality and unmatched control of your digital music files.

The mixer section comes fully equipped with a 3-band EQ per channel with Gain Control, VU meters, cue fader, 1/4" mic input with Tone Control, Auxiliary Inputs for Phono or Line devices, ultra-precise Pitch Control with a range of +/- 24% and a 45mm Super Smooth Crossfader with selectable cross fader curve.

Easy to carry, easy to use, U2 Station is the ultimate digital music control station that is perfect for portable set-ups, permanent installations as well as mobile DJ rigs
