Compact Professional 2-CH DJ Mixer with Built-in Audio Interface

Availability: **Now**

Alternative views

Welcome to the X10, a brand new compact professional DJ Mixer with an integrated 4-in, 4-out USB interface.

On-Board Soundcard – The X10 is equipped with a 4-in 4-out USB Audio Interface. The included Audio Driver allows you to DJ with both PC and Mac platforms at ultra low latency. Regardless if you prefer vinyl or CD time code, the X10 allows you to easily connect to your favorite DVS software (e.g., Virtual DJ, Deckadance, MixVibes, etc.).

Expandable USB Connections – The built-in USB hub also gives you 2 extra USB connections to allow you connect other USB devices such as MIDI controllers to your digital DJ setup. For example you can connect 2 uSolo FX's to the USB hub and have a tightly integrated control surface, soundcard, and mixer connected to your digital DJ software.

More Controls for Less Money – The X10 is compact, but it gives you all the control you need. In addition to the standard mixer functions such as 3-Band EQ, Channel Selection, Crossfader curve control, and split CUE, the X10 is also equipped with Crossfader Reverse, Channel Fader Reverse, 2-way Crossfader Curve, and Channel Fader Curve. This allows the unit to be customized to fit all types mixing styles, while still coming in at an affordable price.
