

## PRODUCT OVERVIEW

### New Product information

The **PD 12** laptop pad keyboard is a mini USB-MIDI controller made up of 12 backlit, velocity-sensitive drum pads. It is suitable for musicians, producers, DJs and other music creators.

The **PD 12** has 6-button transport controls to control your DAW. Its 4 programmable scene banks, vertical fader and 2 assignable modulation buttons gives your laptop the controls you prefer over a mouse and keyboard.

It works plug and play with Mac and PC and requires no software driver installation. It comes with **Drumaxx** and **Waldorf Edition** so you can have sound out of the box
