## TWELVE MKII

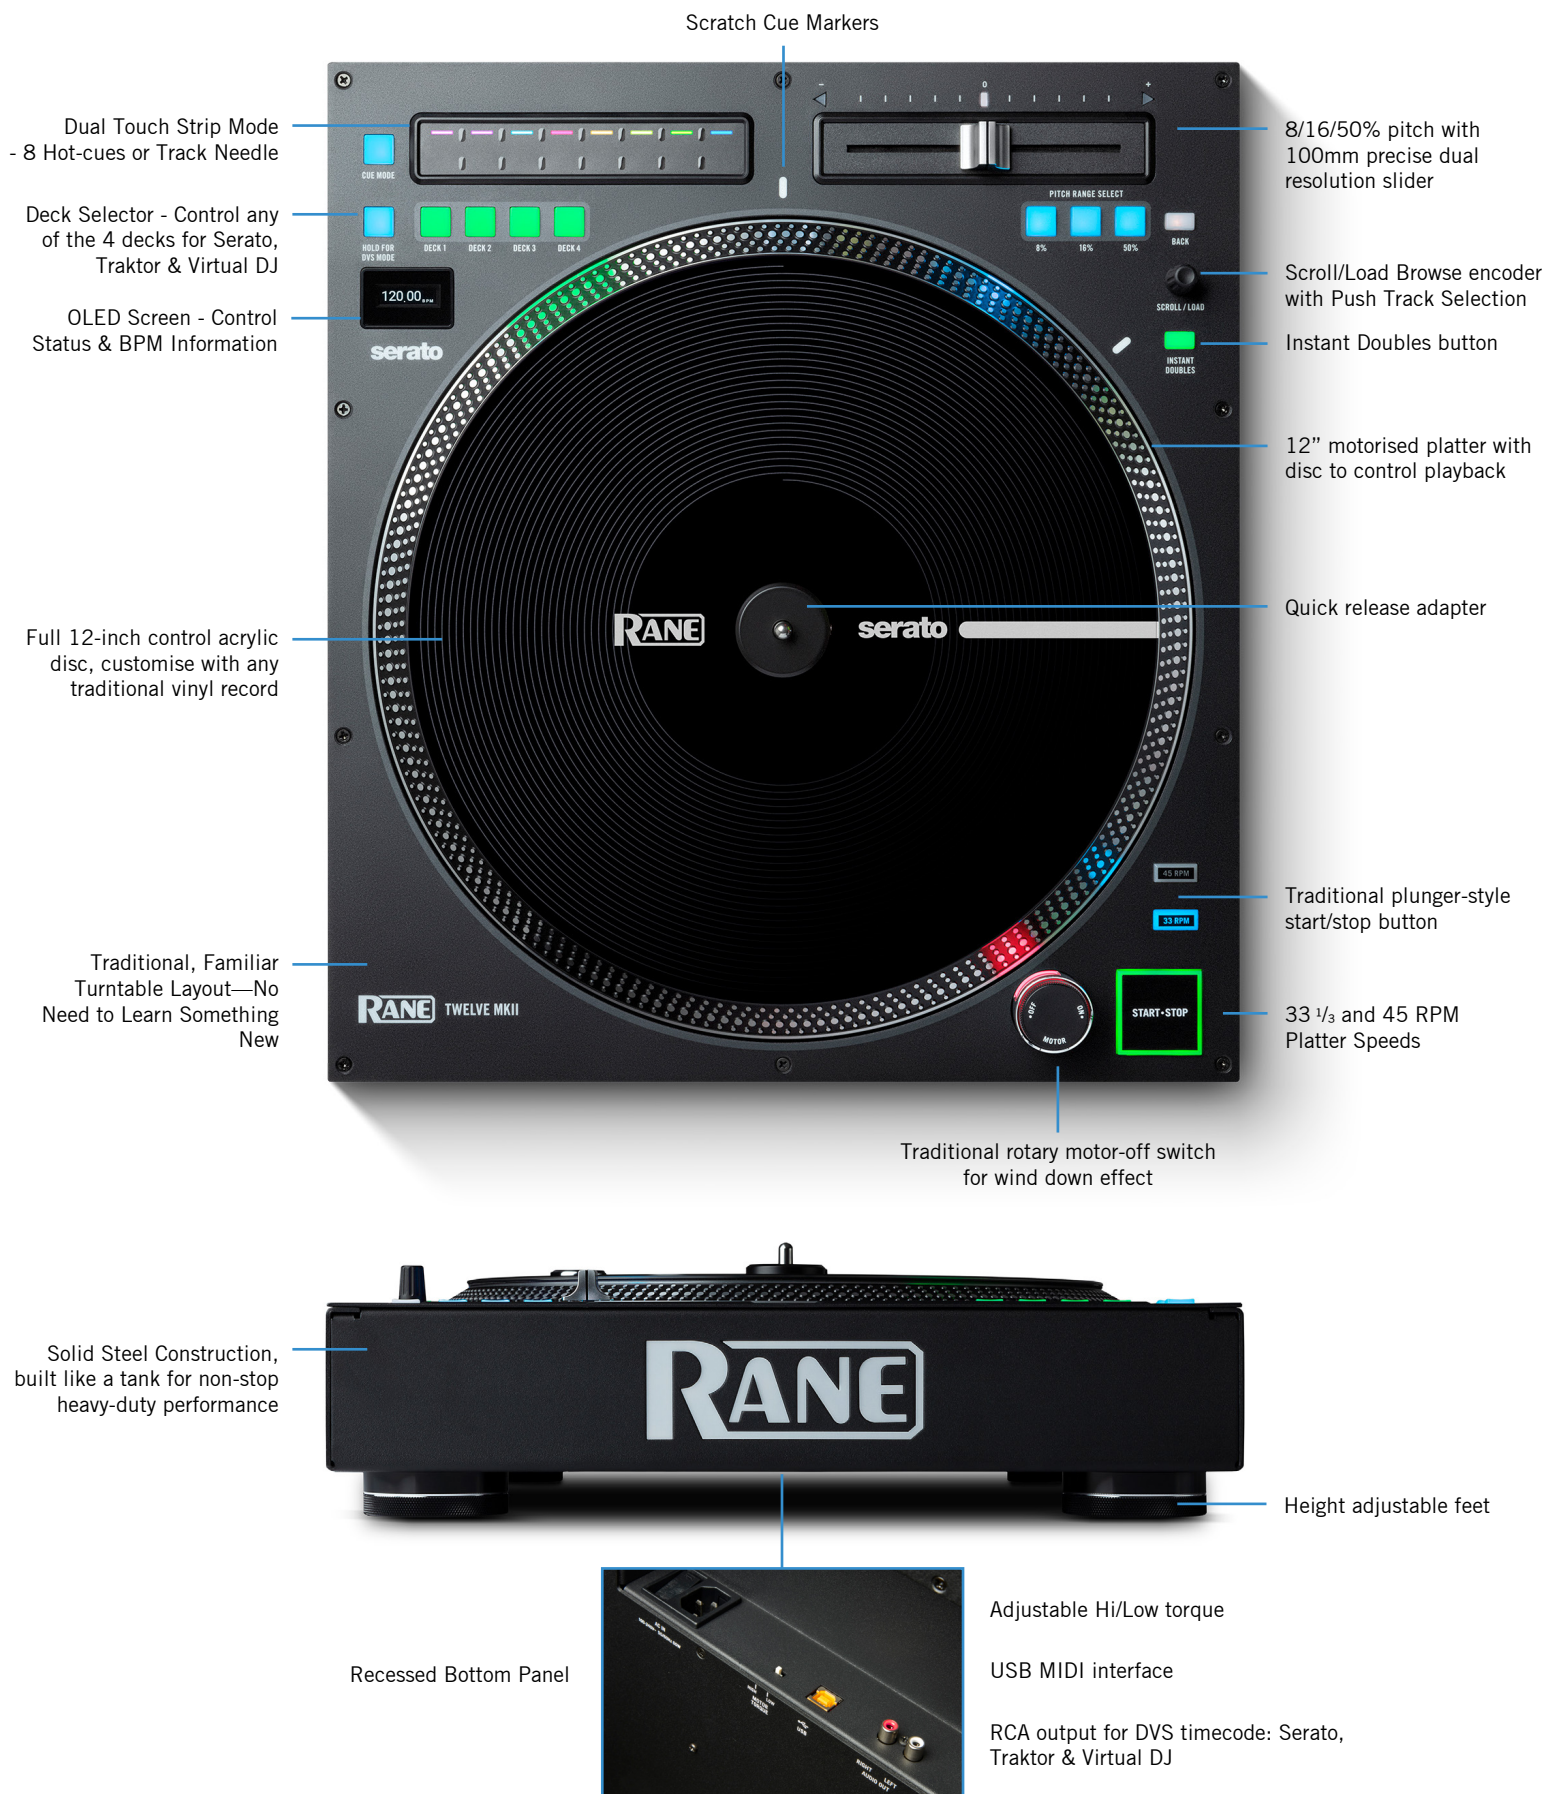

12" Motorised Turntable Controller  
with a True Vinyl-Like Touch

The RANE TWELVE MKII is the new standard in motorised DJ performance. This powerful controller provides an uncompromisingly accurate, hands-on performance experience to digital DJ software, liberating DJs and Turntablists from the pain of damaged tonearms or needles and eliminates unwanted audio feedback, bringing sub-bass back into their music. In addition to Serato DJ integration, the TWELVE MKII now adds TRAKTOR & Virtual DJ control, giving DJs a true vinyl-like experience to their chosen DJ platform. The MKII variant also adds USB control for track browse / selection & instant doubles, DVS Audio control, a new plunger style Start/Stop button and an OLED Screen for BPM display and USB control status. Traditional performance familiarity meets the pinnacle in modern convenience, RANE TWELVE MKII offers the ultimate in multi-platform legacy control.

- **NEW** DVS/USB MIDI Control for Serato DJ Pro, Traktor and Virtual DJ
- **NEW** OLED Screen, Control Selection & BPM display
- **NEW** Navigation control: Scroll/Load, Back & Instant Doubles
- **NEW** New plunger-style Start/Stop button
- Full 12" motorised platter to control playback
- Traditional, familiar turntable layout
- OLED screen display (BPM Display / Control Status)
- Dual Mode Strip: Track Search and 8 Hot Cue triggers
- 5.0 kfcM high-torque motor with Hi/Low torque adjust for more traditional setups
- 4 decks of control so you can use one, two or more
- Extreme precision—3600 ticks of platter resolution for seamless performance
- MIDI interface via USB that can be connected to the SEVENTY-TWO MKII or your computer
- RCA output for DVS audio signals
- 33 1/3 and 45 rpm platter speeds
- 8/16/50% pitch with precise dual resolution slider
- Top panel rotary and traditional Motor Off switch, allows traditional wind down effects
