Weight:
754 g

SKU:
29750

Pricing:
€/$ 299

Key features

- Get total control of decks and effects in Traktor Pro 3 in one portable unit
- Five OLED displays show essential track and effect information
- Get clear visual feedback with user-definable button color coding
- The new light-based system highlights when a track is about to run out or if it's stuck in a loop
- A sleek black design with a transparent bottom shell housing the functional backlighting
- The return of four encoders means easy browsing through each deck
- 20 transport control buttons with an ergonomic redesign
- New accessibility features, including tactile dots for better orientation
- Advanced connectivity thanks to a three-port USB hub allows for a streamlined setup when connecting additional controllers
- Traktor Pro 3 software comes included

DJ your way

Highly customizable, the X1 can be quickly set up to meet your specific needs. Make adjustments to mapping with a customization page in Traktor Pro 3, including presets for different use cases. Map each button and color-code them to identify specific functions in the heat of the moment. Plus, a three-port USB hub means you can simply connect to CDJs, your custom setups, or daisy-chain more X1s.

Stay in the moment

Keep your eyes on the gear and not the laptop, with five OLED displays showing essential information including remaining time, track name, selected effects, and effects parameters.

Hardware specification

- 5 OLED screens
- Three-port powered USB hub (power supply included)
- 34 backlit buttons
- 4 endless encoders
- 8 potentiometers

Included software

- Traktor Pro 3

System requirements

- macOS 11, 12, 13 (latest update), iTunes 12 (latest update), Intel Core i5 or Apple M1 / M2, 4 GB RAM
- Windows 10, 11 (latest service pack), Intel Core i5 or equivalent CPU, 4 GB RAM

An internet connection and a graphics card that supports OpenGL 2.1 or higher are required to download and activate the Traktor software. Once installed and activated, all products can be used offline.
